Manji S Hirani

Junior Frontend Developer | React | JavaScript | TypeScript | CSS3 | HTML5 | Next.js
hiranidotcom@gmail.com | 832-758-1138 | Richmond, TX | LinkedIn | GitHub | Portfolio

Summary

Junior Frontend Developer with React, JavaScript and TypeScript experience across six deployed personal projects on Vercel, including three Frontend Simplified internship projects and an independently built choghadiya calculator built for family use. Writes semantic HTML5 and CSS3 with Tailwind, integrates REST APIs and works through Git and GitHub. Frontend Simplified graduate (2026); 20 years running a six-location business brings reliability and clear communication.

Technical Skills

Languages & Web: JavaScript (ES6+), TypeScript, CSS3, HTML5 and semantic HTML, Tailwind CSS, Bootstrap
Frameworks & Libraries: React, Next.js (App Router), React Router, React Context, keen-slider and Swiper carousels
Backend & APIs: REST APIs (fetch and axios), Firebase Authentication, Firestore, Next.js Route Handlers, OMDb API
Tools & Platforms: Git, GitHub, Vercel, Vite, Create React App, npm, loading skeletons, Figma handoff
Currently learning: Node.js and Express outside Next.js; automated testing

Experience

Edible Arrangements (Greater Houston, TX) Oct 2005 - Present
Franchise Owner and Operator (6 locations)

- Own and operate 6 franchise locations with 35+ staff and $2M+ annual revenue; standardised operating procedures across all sites and handle budgeting, payroll and compliance in-house.
- Lead and mentor a cross-functional team, turning corporate targets into execution plans and resolving daily issues.

Projects

Summarist App *(Frontend Simplified internship project 2)* | Live Demo | GitHub

- Next.js App Router, TypeScript and Tailwind CSS subscription app built out from a supplied landing page: Firebase Authentication, Firestore-saved library, gated reader and audio player, Stripe Checkout via Route Handlers and webhook.

Skinstric AI *(Frontend Simplified internship project 3)* | Live Demo | GitHub

- Next.js App Router and Tailwind CSS app built to a supplied Figma design: multi-step flow, image upload or live camera capture, POST to an AI analysis API, and a results view where the user confirms or adjusts the returned estimate.

NFT Marketplace (NFT World App) *(Frontend Simplified internship project 1)* | Live Demo | GitHub

- React (Create React App) app converted from a supplied static Bootstrap template: React Router pages, Axios requests to multiple API endpoints, Context for shared data, carousels, countdown timers and loading skeletons.

Vedic Choghadiya Calculator *(independent project)* | Live Demo | GitHub

- Self-initiated Next.js App Router app built in response to a family need: route handlers geocode a typed location, resolve its time zone, compute sunrise and sunset (suncalc3) and build the 16 choghadiya windows (luxon); Tailwind grid, live-slot highlight.

Education

Frontend Simplified Oct 2025 - Jul 2026
Software Engineering Course with supervised Frontend Developer internship projects (React, TypeScript, Next.js)

Hammersmith High School, London, UK Aug 1981 - Jun 1985
High School Diploma: A-Level passes in Computer Science, Mathematics and Physics
